																Funding requested - \$ only	Requests during oral submissions	Top 3 Topics	Top 3 Topics	Top 3 Topics			
95	Di	Hooper				x						x		Disagrees with any rate rise. Reduce staff	As Buller District Council is continually increasing its rates by more than the national rate of inflation it must learn to budget appropriately and consider the welfare of its residents. I do not want an increase in rates greater than 0%. Get on the central governments page. Reduce staff. Your plan needs re-writing. It gets a D from me for literacy. It is not readable, simply expressed or easily understood. 0% rates			Affordability					
96	Daniel	Reynolds	x								x		Concern with level of staff and affordability.	Disagree with meeting regulation.									
97	Shayne	Kennedy		x							x		Affordability concern.	Disagree with any increase over 10%									
98	Karen	Civil									x		Disagree with increase in rates.	As Buller District Council is continually increasing its rates by more than the national rate of inflation it must learn to budget appropriately and consider the welfare of its residents. I do not want an increase in rates greater than %. Don't want increase. It's bad enough now and the fact that we pay 2 council sets of rates with Westport and Greymouth is ludicrous. No increase. Use the money govt gives for substantial things. Not waste it.			Affordability						
99	Carl and Chrissy	Alfred								x			Agree with change of policy but with a correct method. Disagrees with the way the increase is calculated.										
100	Peter	Durkin	x								x												
101	Bryan Keith	Campbell									x		Refer to 'Request to amend rating information database'										
102	Margaret	Grant										x		I understand the economic situation for all ratepayers and that times will be challenging with rate increases. However I would like to Council to consider budgeting funds for the economic development of the region along with the promotion of the region. I look at Kaikoura. A much small District Council than ours and they have a very active Council promotion organisation i.e. Destination Kaikoura. My thoughts are also that some way we have to find an avenue to help Westport's Commercial area. Every town needs their commercial hub and as many businesses are struggling to stay in business on Palmerston Street and surrounds. It concerns us all to see empty premises so any relief for the business would be appreciated. We must keep our town vibrant to encourage people to live here.			Affordability						
103	David	Hingston										x		Feedback on water changes Mentioned Council double dipping				Affordability					
104	Lynda	Hill	x									x	I would like to know what the revised policy would be before I make a decision on this question.										
105	Graham	Howard (Sen)								x			Council plan and budget for ongoing work programs - Eg waterpipe renewals, footpaths etc and advise ratepayers what has been done and is to be done 3 monthly. Do need to be done work to good quality not patch-up jobs.	Reduce consultant costs Would like Council to give 3 monthly update on plans on what is getting done		Sealing roads through russell st, with lyndhurst and wakefield	Affordability	Cost / usage of consultatns					
106	Margaret	Montgomery	x									x	Metered water	All properties should have metered water Make AP easier to read Usage of district posters should be free More promotion of tourism

191	Rylee Julz	Duncan				x			x				I do not want an increase in rates greater than 0%			Affordability		
192	Lorna	Lavery				x			x			I would like the current council stood down. I have no faith in current council. THEY NEED TO GO far far away.	I would like to reject the current proposal for the rates increase. I would like a "0%" increase.			Affordability		
193	Doreen	Ryan				x			x				I do not want an increase in rates greater than NIL%			Affordability		
194	Chris	Reynolds				x			x	No-one connection. One charge. As in your bylaws		Businesses won't be able to survive with rates and compliance costs rising. Rubbish should be charged on user pays basis. Pay cuts for council staff/consultants. Timing of release of consultation not acceptable. Toilet tax - ridiculous idea. Rating consistency - imperative for survival of town to ensure we have NO rate rise. Hub was another example of wasted money. Trust in our council at an all time low.	I don't want a rates rise of more than 0%. ZERO			Affordability		
195	R and S	Landcaster and Hewitt				x			x				I do not want an increase in rates greater than 5%			Affordability		
196	Lynda	Reynolds				x			x	Believes this should be kept to one connection. One charge.		Any rate rise should never be greater than the rate of inflation. Work undertaken by council needs to be for core functions only and kept to minimal costs. The business sector of Westport is being particularly impacted by random and sometimes illegal compliance costs demanded by council - trade waste, WOF costs. Council has no comprehension of the damage they are causing this town amid crippling rising costs and their reluctance to be honest and transparent with the public.						
197	David	Barnes				x			x	Keep the policy the same on how water and wastewater targeted rates are charged.		I do not approve of the proposed rate increase: Majority of ratepayers are financially stressed. Council and Govt need to face up to the fact Rate and Tax payers are already at the limit of their finances with no access to further income to meet increases. Cancel LGNZ membership. Westport Harbour: note harbour activities of the port and dredging finances are ringfenced. A significant assumption contained in the plan is the new large commercial operator would be trialling shipping out of the port from 2023-24 and funding Westport Harbour. Does Westland Mineral Sands Port Management contract allow them to set their wharfage and port charges? All assumptions on Harbour finances are unrealistic if they continue to truck to and ship out of Nelson. What if the commercial operation does not proceed after trial? Income has already fallen below prediction of the LTP ring fenced or not, this debt will have to be funded at some time. Kawatiri: use for out-port dredging contracts provided small net income. Nelson only possible viable annual contract for BDC. Kawatiri Significant Budget Capital Expenditure: \$818,000 Kawatiri DOP pump installation and engine upgrades - project neither accurately documented or costed. Estimate only so effect illusory and leading to unsafe decision. Explanation of DOP pump included in submission. The Hitachi crane (30 ton) was removed and there is currently no means to complete the whole Nelson contract. Simply replace the crane and grab - cheaper and fully known operation. Overcapitalising kawatiri (with DOP) is extremely unwise. whilst Westland Mineral Sands is in trial period. Any financially viable outport dredging for BDC is extremely uncertain. If Westport Mineral Sands see dredging as part of their needs then sell Kawatiri to them.						
198	Steve	White				x			x			Believes council is pandering lowering to local govt standards and should be using local knowledge and skills to solve local problems	I do not want an increase in rates greater than 7%			Affordability		
199	Linda and Ian	Grammer and Mulholland				x			x			We ask BDC to learn from the mistakes of previous councils and now do the right thing by its ratepayers. As well as for Council budget funds to actively oppose Setverson Mining's ill -advised plan for coal mine on Te Kuha and in 100+ ha of the Westport Water Conservation Reserve. We would like to see the current levels of service for parks and reserves maintenance be maintained. Like to see a process for Notable Trees. By providing green spaces and open areas that contribute to indigenous biodiversity and people's enjoyment of our						
200	Wendy and Michael	Easton and Fischer				x			x			I do not agree with any rate increase at all/and the water increase. I have not had time to consider any of these increases and do not feel the increases are justified with the two toilet rule. I feel there is no clear communication to offer the residents of Westport to making clear concise delivery of information on rates and increasing our rates is so wrong.	I do not want an increase in rates greater than 0%			Affordability		
201	Gary	Clarke				x			x			No mandatory charges	I do not want an increase in rates greater than 3%			Affordability

243	Murray	Dellaca			x				x	Needs to be consideration for exceptional business cases.	Westport Advantage (WA) owns 52 Russell St complex leased to Epic and Radcliffes (two separate businesses), OK with 2x water and waste rates being charged. Proposal says 5x - is this a mistake? Epic = communal working space for customers with different levels of occupation at different times of day. WA are not shareholders of Epic, are the ratepayers and have two tenants = two lots of waste and water rates?												
244	Wayne								x			I do not want an increase in rates greater than 1%					Affordability						
245	Jenny	Collins	x						x		Opposes water and sewerage proposal - rushed nature and reliance on inaccurate QV/council data, believes it to be inequitable. Communication was confusing and crucial details missing. New policy will mean rates rise to 6720.40 from 4229.40, is unmanageable. Built unit for elderly mother under 90 m2 so as not to be considered as dwelling, and joined drains/sewerage onto existing dwelling at own cost to maintain one connection. Cannot be subdivided off or properly used as a rental, effectively an extension of main house/for family only. Should be a remission policy to address this instead of paying for two additional connections. User pays should guide charges and commercial properties be monitored and metered appropriately. Better efforts to identify and communicate with affected ratepayers necessary. Descriptions currently held by QV mean some existing qualifying properties with tenants may not be identified, creating animosity. SUIP description removed from 2024/25 AP documentation?												
246	Norma	ODea							x		No mandatory charges, no \$ consultants, ratepayers, esp. elderly not working can't afford increases.	I do not want an increase in rates greater than 0%					Cost of consultants	Affordability					
247	R	Watson							x			I do not want an increase in rates greater than 0%					Affordability						
248	Salesi	Kaifoto							x		No hub.	I do not want an increase in rates greater than 0%					Affordability						
249	Leanne	Sinclair	x						x	Particularly concerned about proposal to charge 50% of water charge to properties not connected but within 50 m of a water line. Status quo should be maintained - no connection to boundary, not connected to supply, no rates charge. Concerned that properties with no connection to the boundary and in locations where water supply is non-potable/subject to boil water notice - in this case 50% charge is unacceptable as most people wouldn't choose to connect anyway due to quality issues. Extra charge plus cost of consent/connecting isn't fair or acceptable and is unaffordable during a cost of living crisis.	Council must do all it can to keep rates to a minimum - increases are putting high stress on household finances - the proposed increases are unaffordable to many.												
250	Sarah	Shannon							x		Roading needs to be kept equal to the amount given by land transport, don't increase rates to pay for more. Keep rubbish user-pays, no community hub.	I do not want an increase in rates greater than 0%					Affordability						
251	Lisa-Marie	Garrett							x			Zero would be great					Affordability						
252									x														
253	Linda	Shearer							x		Rates have virtually doubled in 8yrs has owned property. Shouldn't pay anything above inflation rate at very most, prefer 0% increase.	Zero would be great					Affordability						
254	Peter	Mackie							x		No hub.	I do not want an increase in rates greater than 0%					Affordability						
255	David	Jackson							x			I do not want an increase in rates greater than 5%					Affordability						
256	Daniel	Neil							x		This rates rise has got to stop, too much money wasted.	I do not want an increase in rates greater than 0%					Affordability						
257	Malcolm	Smith							x			I do not want an increase in rates greater than 2%					Affordability						
258	Jazper	Hamilton							x			I do not want an increase in rates greater than 4%					Affordability						
259	Kenneth	Neil							x		Too much of ratepayers money wasted/wasted on consultants. (Document) is confusing. Too many staff employed by council/that's where money is going.	I do not want an increase in rates greater than 0%				Cost / usage of consultants	Affordability						
260	Kevin	Smith							x		Budget to spend what we have, don't spend on vanity projects/whimsical stuff. Wishes to speak on what he considers wasteful spending. Council needs to listen to local knowledge. There is real anger at the way ratepayers are being treated.	I do not want an increase in rates greater than 5%				Affordability							
261	Adrian	Lineham							x			I do not want an increase in rates greater than 2.5%					Affordability						
262	Cheryl	Rodmell							x		Does not believe council has done anything for local ratepayers or business owners.	I do not want an increase in rates greater than 0%					Affordability						
263	Rachael	Blick							x		Council is wasting money	I do not want an increase in rates greater than 0%					Affordability						
264	Paula	Downes							x		National and local issues vs local community	I do not want an increase in rates greater than 0%					Affordability						
265	Ken	Kilgour							x		Many situations in a state of limbo, e.g. flood mitigation	?				Cost / usage of consultants	Affordability						
266	Jennifer	Cozens							x		EAP is confusing	I do not want an increase in rates greater than 0%					Affordability						
267	Linda M	Evans							x		EAP document is confusing	I do not want an increase in rates greater than 0%					Affordability						
268	K.P.	Jones							x			I do not want an increase in rates greater than 4%					Affordability						
269	Julie	Kernohan							x			I do not want an increase in rates greater than 2%					Affordability						
270	Allan	Donaldson							x		Rates increase to match inflation	I do not want an increase in rates greater than 4%					Affordability						
271	P	Snowden							x			I do not want an increase in rates greater than 0%					Affordability						
272	Fran	Hill							x			I do not want an increase in rates greater than 10%					Affordability						
273	Rosaleen	Howat							x			I do not want an increase in rates greater than 10%					Affordability						
274	Andrew	Beaumont							x		(? Rates increase) that fairly represents all ratepayers of Buller	?					Affordability						
275	Lana	Russ							x			I do not want an increase in rates greater than 0%					Affordability

519	Graeme	Russ				x			x			I do not want an increase in rates greater than 0%			Affordability			
520	Kim	Campbell				x			x		Proof of costings	I do not want an increase in rates greater than 2%			Affordability			
521	Michelle	Keoghan				x			x		past few years rates have increased above inflation so already paying more than we should. Don't believe money is being spent effectively or in best interests of home and business owners.	I do not want an increase in rates greater than 0%			Affordability			
522	Heather	O'Toole				x			x		Too many staff employed that are incapable so therefore consultants being used. Disagree with rates rise as too much excess money being spent unnecessarily. If money was being spent on town I wouldn't have a problem having extra rates.	I do not want an increase in rates greater than 0%			Affordability			
523	Murray	Hammond				x			x			I do not want an increase in rates greater than 1%			Affordability			
524	Melanie	Bailey				x			x		Because we have had such an interest hike already for the last few terms.	I do not want an increase in rates greater than 2%			Affordability			
525	Lynette	Hammond				x			x		Rates have increased dramatically already. Management of our waterways, ditches etc. not maintained. The Council are thieves.	I do not want an increase in rates greater than 0%			Affordability			
526	John	Morrow				x			x			I do not want an increase in rates greater than 2%			Affordability			
527	Dave	Perger				x			x			I do not want an increase in rates greater than 0%			Affordability			
528	Caroline	Flower				x			x			I do not want an increase in rates greater than 2-4%			Affordability			
529	John	Swan				x			x		As a pensioner I can't afford these high rates. Already pay \$4,000 a year. 2-4% acceptable (rate of inflation) but any more not acceptable.	I do not want an increase in rates greater than 2-4%			Affordability			
530	Alan	Greig				x			x		Totally agree with this proposal. Council needs to be fiscally responsible. At present there's a total lack of accountability, spending on irrelevant projects needs to be stopped. Use of consultants needs to be reigned in. Obviously given the amount of consultancy expenditure there is an obvious lack of technical expertise within current council make-up.				Affordability	Affordability		
531	Rusty					x			x		Don't believe rates should be increased until we are happy with the way Council are running and not wasting our money. I also know council will be getting an increase from QV values alone. Stop spending on over-inflated contractors who are wasting our money.							
532	Rita	Debs				x			x		Asking BDC to 1. Continue to commit to the partnership with strong representation at the Alliance table and associated engagement; and 2. Include sufficient internal budget and/or resourcing to enable active participation. Acknowledge BDC active and engaged member of Alliance - approved Strategic Implementation Pathway Plan in Feb. 2024 Notes participation of community members in developing Buler section that prioritises opportunities for environmental restoration, nature based solutions and climate resilience. Partnership already benefits Buller District in many ways - restoring and protecting flora project, Nature Conservancy contribution \$80,000 towards restoration of river delta and floodplain, contributing \$25,000 to integrated planning of Old Ghost Road Sanctuary Mainland project, over \$30,000 for facilitation and participation in restoration by design process.							
533						x			x									
534	Andy	Walczak				x			x			I do not want an increase in rates greater than 0%			Affordability			
535	Rex	Collins				x			x			I do not want an increase in rates greater than 4%			Affordability			
536	Frida	Inta	x						x		exorbitant rate rises this coming year. Waka Kotahi invested heavily in Buller roads after 2022 extreme flooding events which created resilience in Buller roading. We can safely reduce programme to match Waka Kotahi input while reducing looking council rate pain.							
537	Anne	Middlemass-Collins				x			x			I do not want an increase in rates greater than 4%			Affordability			
538	Alida Maria	Knegjens				x			x			I do not want an increase in rates greater than 0%			Affordability

540	Yvonne	Ward				x			x			I do not want an increase in rates greater than the rate of inflation			Affordability			
541	Nicola	Smith				x			x			I do not want an increase in rates greater than 0%			Affordability			
542	Kath	Rose				x			x		Request for continued financial support for funding the provision of tourism information services, mowing of public areas and general beautification services. Seeking \$5000 for district promotion and tourism support. Seeking \$4432 for Property Management of Amenities and Reserves.		\$9,432					
543	Elizabeth	King				x			x			I do not want an increase in rates greater than 0%			Affordability			
544	Chris	Wilson				x			x			I do not want an increase in rates greater than 3.5%			Affordability			
545	Francis	O'Brien				x			x		Seeking annual funding to maintain the wheelchair accessible public toilet that is opened, closed and cleaned by local resident. They are paid \$640 every quarter from Caltex/New World vouchers. Seeking \$2560 (\$7 per day) to pay for open, close and clean toilet. There is also an annual cost of \$440, for supplies (toilet paper, cleaning products, maintenance and operating costs). Total ask is \$3000 per annum.		\$3,000					
546	Steven	Bergman				x			x			I do not want an increase in rates greater than 0%			Affordability			
547	Kevin	Boyd				x			x		Until there is FULL accountability, NO rates increases!!!!	I do not want an increase in rates greater than 0%			Affordability			
548	Charlotte	May				x			x		Seeking funding for operating costs of the Northern Buller Museum in Granity. Operating costs per year are approximately \$24,000 which covers insurance, rates, fuel costs, accountant, BDC permits and operating maintenance costs. Seeking \$12,000. A concept plan has been developed.		\$12,000					
549	Carole	Davies				x			x		The rates are meant to be going up. Can't see where the money is going and what we are getting for the money spent. Council can't make decisions without having a consultant. What have we got a council for. We have an annual plan but told by the Mayor we won't understand it. What with rates, water etc, Westport is a very dear place to live in. I would like to move if you can see your house. If people are on pensions I can't see how they are going to pay. People are having trouble to pay now.	I do not want an increase in rates greater than 5%			Cost / usage of consultants	Affordability

580	Gary	Anderson				x				x			No Hub.	I do not want an increase in rates greater than 7%				Affordability				
581	Jim	Foster				x				x												
582	Michael	Lang				x				x			Any increase will start to force people out of our community as they consider the rates already barely affordable. More Community discussion on Little Wanganui Subdivision water scheme before further money is spent recklessly.	I do not want an increase in rates greater than 0%				Affordability				
	Lisa Marie	Garrett				x				x			Zero would be great as I'm a solo mum struggling to afford to keep paying my mortgage.	I do not want an increase in rates greater than 0%				Affordability				
584	Vaughan	Harris				x				x			Buller rates must be changed to cpaital value based rates like rest of the contury to be anywhere near fair. Stop wasting time on government water upgrades. Unrealistic. Step down and let govt run Buller if you can't say we're not doing your water requirements.	I do not want an increase in rates greater than 0%				Affordability				
585	Luke	Sweeney			x					x			I provide three good quality rentals to tenants who need a home. I don't want to be penalised for this. Thank you.									
586	Neil	Mouat				x				x			Visitor Accommodation issue with under the radar accommodation. Not enough visitor beds in conventional commercial accommodations to house the numbers required to foster more diverse service businesses and activities. Need to be greater use of rural land across the coast road. Minimum size of rural sections fitting this description could be much reduced, and/or the number of dwellings per section increased. Homesteading rural land exhausted by driveway, sewer, building pad and structure costs. More people living on what land we have available will contribute the most to our visitor industry.									
	Toni	O'Keefe				x				x			Seeking funding for critical maintenance of Seddonville Holiday Park, painting externally and internally. The building is Seddonville's only public building/space for community use. Also used as Seddonville's Civil Defence Building. This is something that can not be left too much longer.		\$60,720							
588	Pete and Jill	Archibald				x				x			Draft EAP plan relating to water and waste has come to us completely without prior consultation. We operate 2 accommodation units as part of our dwelling and set room rates 12months in advance based on things like inflation & rates increases. We need BDC to consider making the changes proposed to our water and waste costs be implemented in the 2025/26 financial year, so we have time to adjust our costs accordingly.									
589	David	Jackson				x				x			Pensioners are struggling to pay rates as they are now. The present rate no way reflects the service given. Less consultants, more practical work on the town.	I do not want an increase in rates greater than 5%				Affordability				
590	Cheryl	Mawson				x				x			Pay enough now.	I do not want an increase in rates greater than 0%				Affordability				
591	Katy	Ramsy				x				x				I do not want an increase in rates greater than 3.5%				Affordability				
592	Bob	Mawson				x				x			Don't reduce speed limits. Provide Karamea with the facilities they presently pay for.	I do not want an increase in rates greater than -40%				Affordability				
593	Jamie	McCarthy				x				x				I do not want an increase in rates greater than 0%				Affordability

612	Raymond and Vicki	Head		x				x			Strongly oppose BDC proposal for changes to drinking/wastewater rating. Provider of permanent accommodation for predominantly single, lower socioeconomic members of the community via a two-storey building divided into small units (9 in total, generally single occupancy). Official supplier for WINZ. Shared laundry with one machine for all tenants, no gardens requiring water, only half of tenants have cars/little need for water for cleaning. Although multi-residential, this does not mean we have same number of people per SUIP compared to a standalone house and actually have far less water usage per SUIP than a 3/4 bed house which would be considered 1 SUIP. We do not believe that the total overall water usage of the building would be reflected correctly should the proposal go ahead.							
613	Reglyn Investments	Limited	x					x			Charging wastewater rates for non-users is unacceptable. These rates should only apply to users, i.e. user pays system. Charging for water used is acceptable.							
614	R.A. Sangster					x			x		Appreciates there is a lot of work required to be done to update infrastructure. However due to cost of living on households, business and property owners that are at break point, plus high interest, increasing rates and compliance costs loaded onto an over-regulated system, this is not a time to increase rates - will cause closures. Time to tighten spending. Road through Buller Gorge - consultants/compliance/DOC/Greenies/would this road be achievable/affordable in 2024? Don't waste time and money on floodwall/wall of gravel, reopen a diversion on the Orowaiti, tide is the same height there as the existing mouth.							
615	Jan	Coll				x			x		Fees and charges - support the "actual" cost of planning consultants being invoices. We have not been accepting of the 10% charge on consultants fees. <i>Pe.182 of fees and charges.</i>						Affordability	
616	Bede	O'Connor			x		x			FF supports councils need to change policy including LG Rating Act and use of QV data. Concerned 50% charge within availability of supply could see some rural properties charged for a service they are not accessing because it is not economical or private connection sufficient. Changes to water rates important because of 3 Waters reforms and water assets now remaining in Local authority meaning greater ratepayer investment needed. Like assurance rural ratepayers not unintentionally captured in proposed changes	FF encourages BDC to utilise the UAGC to its legislative maximum and is supportive of the 30% level. Solid waste should be paid for through targeted rates and those who benefit from them e.g. Christchurch CC. Increased UAGC means BDC could present a lower rate increase through general rates. Could consider moving roading expenditure increase under UAGC as all residents benefit from resilient roading infrastructure. Overall rate increase is significant for many in the rural community. e.g. Rural in MAI MAI - over 18%. Understand this is due to large increased investment in roaing network. Support upgrading road network but need to be fair to rural properties. Impact on rates increases coupled with WRC rates increases - important any decision on fundind that does not have all infomration should be deferred to LTP rates review - opportunity for West Coast FF to feed in members concerns and work to assist to create a future proofed and equitable rating system. LTP - like to work with BDC pre-constitation to ensure members and ratepayers better represented in draft LTP.							
617	Phil	Rossiter				x			x		Outline of Trust (Old Ghost Road and Rough & Tumble Lodge) and visitor spend in the District - estimated annual economic contribution to district >\$5m. Current LTP and AP provide \$30,000 per year to maintenance of Old Ghost Road. Able to use as co-funding to seek equivalent. Trust generally able to cover cost of activities and deliver community benefits. Implore Council to retain \$30,000 per annum given significant comunity benefits derived.							\$30,000
618	John	Park				x		x		Object strongly to proposed water charges change: Never been suggested would be obliged to join Hector Water supply or face any charge Access to HWS not straightforward need to dig a trench across S67 and cost significant. Supply untreated and standing boil water notice. HWS does not offer solution for fire fighting but onsite water tank with fire hose connection does. As a result have invested in own rainwater supply system (cost >\$10,000) Acted in good faith and now facing \$357 per annum on unnecessary water supply still exposed in event of fire. Never suggested might be chrage in future even if not cconnected. solution is exemption for us and others in similar situation - grandfathering provision with new houses charged as they would have full knowledge of situation.								
619						x			x		Introduction of Sports Tasman activities with BDC as key stakeholder in the work they do.. Outline of value of Sport and Recreation Provision of play, active recreation and sports facilities, infrastructure, resources and opportunities is important to a large proportion of the population. The value of investment in play, active recreation and sport is a ccost-effective investment towards local government wellbeing outcomes. Sport NZ has developed a local government resource on-line. Council has key role in facility planning, development and operation that enables play, active recreation and sport. Like to work closer with Council to understand how best to develop, support and advocate for spaces, places and facilities approach that meets the needs of the community.
